SURPLUS of CAPITAL EQUIPMENT

Item(s) to Surplus:

1. 2016 9-Passenger Ford Transit van with 108,232 miles

This vehicle was originally purchased in 2016 as a pupil transport (7D) van. In November of 2023 the vehicle failed to pass the 7D vehicle inspection due to frame rust. The vehicle did pass the standard vehicle inspection and was re-registered as a utility vehicle with municipal plates. It has received little use and its condition continues to deteriorate.

MOTION:

“Move to declare the 2016 9-Passenger Ford Van, identified as Van 4, with 108,232 miles as surplus equipment.”
